A fusion of ingenuity and practicality

Bradnam's **Cavity Sliding Doors** will revolutionise how outdoor and entertainment areas are designed. Unlike traditional 'entertainment doors' such as stacker doors or bi-fold doors, our Cavity Doors truly provide unobstructed views and access. Seamlessly gliding out of sight, they don't have fixed or folded panels blocking the view or access from the inside to the outside.

Turn a tight corner into the ultimate view...

Spectacular from any angle

Be it a new architecturally designed home or a renovation enhancement of an existing property, our **Corner Sliding Doors** are perfect for joining living areas with gardens, patios or pool areas. They are capable of spanning either a 90 or 135 degree angle without a post, providing better access and view compared to standard sliding or stacker doors.
